

# Carlsmed Raises \$52.5M in Series C Financing to Advance Personalized Spine Surgery

March 18, 2024

CARLSBAD, Calif.--([BUSINESS WIRE](#))--Carlsmed, an AI-enabled personalized surgery Medtech company, announced today a \$52.5M Series C funding round co-led by B Capital and U.S. Venture Partners. These proceeds will be used to accelerate the commercialization of the aprevo® personalized spine surgery platform for lumbar fusion procedures and the development of aprevo® for cervical fusions, which will launch in 2025.

“We started Carlsmed to improve patient outcomes through personalized surgery, and recent clinical publications indicate that aprevo® patient specific implants are achieving this goal,” stated Mike Cordonnier, CEO of Carlsmed. “Our AI-enabled technology platform and innovative business model allows us to scale production rapidly to meet growing demand and empower patients.”

Dr. Robert Mittendorff, General Partner and Head of Healthcare at B Capital, said, “Carlsmed is transforming spine surgery through the application of its AI-enabled technology and has proven to be a category creator in a market overdue for meaningful innovation. Personalized surgery will be the standard of care in spine, and we look forward to supporting this transformation led by Carlsmed.”

Carlsmed has received Breakthrough Device designation by the FDA for aprevo® lumbar and cervical patient-specific interbody fusion devices. The Carlsmed implantable devices and software platforms are FDA cleared for lumbar spine fusion, including anterior, lateral, and transforaminal approaches.
